NJI News The New Jersey Institute for Training in Psychoanalysis, Inc.

NJI's fall semester is already underway. We welcomed candidates to the 5-Year Certified Psychoanalysis Program, the 2-Year Child and Adolescent Psychotherapy Studies Program, the 1-Year Group Psychotherapy Program, and the Supervision of the Psychoanalytic Process Program.

Our 29th Annual Conference - "Erotic Transference and Countertransference: Sexuality in the Therapeutic Hour," co-sponsored with the New Jersey Society for Clinical Social Work, took place in October. The conference featured Arno Karlen, who examined the emergence of sexual and loving emotions in the therapeutic hour and focused on their significance in the treatment.

TRISP News Training and Research in Self Psychology

Join us on the second Friday of each month for our evening workshop series. Aimed at introducing participants to the ideas of self psychology, these seminars and clinical case presentations will highlight the key concepts of Heinz Kohut's theory and their application in clinical practice.

On February 8, Susanne Weil presents **Rupture and Repair**, where she will explore the self-psychological response to resistance. In addition, beginning in January, TRISP invites you to hear leading self-psychologists (whose areas of expertise include trauma, intimacy, addiction, and despair) discuss case presentations first-hand. In these animated conversations, participants will learn how self-psychological concepts are applied in the immediacy of the consulting room.

Dates are as follows:

January 11 - Marty Livingstone and Jeffrey Karaban

March 14 - Harry Paul and Karen Roser

May 9 - Peter Zimmermann and Ginny Rachmani

June 13 - Richard Ulman and tba

All workshops take place at TRISP, East 96 Street, Suite 1A, NYC from 6 to 7:30 p.m. The series is \$80 and each workshop is \$15 if pre-registered or \$20 at the door. For more information, contact TRISP at (212) 828-1042 or trispnyc@msn.com. Check out our new Web site at www.trisp.org.

WITPP News The Westchester Institute for Training in Psychoanalysis and Psychotherapy

It is with deep sadness that we inform you that John Snook, one of our long-time members, passed away early in October. John was one of the founders of the Westchester Institute, a graduate of our program, and a faculty member in the 1970's and 1980's. He was President of the Board of Directors from 1994 to 2000 and remained interested in WITPP until his death.

On December 1-2, WITPP sponsored a workshop by Donald E. Kalsched, PhD, titled **Trauma and the Soul: Mystical Aspects of Psychotherapy with the Survivors of Early Trauma**, in Katonah, NY. Many contemporary psychoanalytic writers are acknowledging a non-rational or "mystical" dimension to their practice, something Jung's work emphasized in his theory of the "transcendent function." Kalsched provided some dramatic examples of the way the mythopoeic psyche (Jung) supplies life-saving imagery and containing narratives as if to fill the "gap" in self-world relations opened up by childhood trauma. He explored how this magical inner world also has a dark, destructive side, becoming a powerful defense and a source of resistance to healing, and demonstrated how working playfully within the bi-personal field with dreams and metaphor can

bypass this resistance, leading to contact with, and eventual recovery of, the lost soul.

WITPP also offers treatment to those with financial hardships through its Referral Service for the institute's candidates. Referrals in the Westchester area may be made to the Institute at (914) 666-0163.

IN MEMORIAM

It is with great sadness that we inform the psychoanalytic community of the death of Joseph Henderson, founder of the C. G. Jung Institute of San Francisco. He died peacefully at Marin General Hospital on Saturday, November 17, shortly after his 104th birthday. Dr. Henderson had been in declining health during the past several months, although he was still able to greet friends and visitors with his usual grace and goodwill. Joe Henderson was an esteemed analyst, mentor, and friend, and an inspiration to us all at CGJI San Francisco. RIP

CALENDAR OF EVENTS

DECEMBER

Dec. 20: "Once a Week vs. Two Times a Week Treatment," Lawrence Birnbach, Ph.D., Scientific Lecture Series, **WSI**
